ii. Profile of Directors

The following are the profiles of the Directors of the Company:

MR. LAU YEW KONG INDEPENDENT NON-EXECUTIVE DIRECTOR

Mr. Lau Yew Kong, aged 63, was appointed to the Board of the Company on 20 March 2014.

Mr. Lau is a qualified chartered accountant with more than 30 years of experience in the investment and stockbroking industry where he had held senior positions including being the Senior Director of Equities at Kenanga Investment Bank Berhad (KIBB), Chief Executive Officer at CIMB Futures, Chief Executive Officer at Southern Bank Securities and Chief Executive Officer and Chief Investment Officer at Pheim Asset Management Sdn. Bhd.

Mr. Lau retired from full-time employment in March 2017. He has taught Accounting and Finance on a part-time basis at the post-graduate level at the International Centre for Education in Islamic Finance (INCEIF) for several years. Currently, he spends his time travelling to Australia as a sessional lecturer at Latrobe Business School, Latrobe University, Melbourne, Australia, where he is a PhD candidate.

Mr. Lau holds a Bachelor of Commerce (Hons.) degree and an MBA degree from Australia and is a Fellow of The Institute of Chartered Accountants in Australia.

MR. TOI SEE JONG NON-INDEPENDENT NON-EXECUTIVE DIRECTOR

Mr. Toi See Jong, aged 60, was appointed to the Board of the Company on 4 September 2013. Mr. Toi is a business leader with more than 28 years of insurance industry and consultancy experience in leading and managing organizations in various stages of its developments and in many different countries.

He is currently the Chief Executive Officer of Tokio Marine Life, where he was appointed in September 2011. He was previously elected as the Regional Director of Prudential Corporation Asia in April 2010 where he was responsible for acquiring new Prudential partnerships as well as managing and developing regional bank partnerships in Asia.

During his tenure as the Chief Executive Officer in UOB Life beginning in July 2008, Mr. Toi successfully formulated a 3-year strategic business plan to develop its bancassurance opportunity with UOB bank. Prior to that, he was a Life Division General Manager of NTUC Income in April 2007, the Country General Manager of Heng An Standard Life in November 2003 and the Chief Executive Officer of Mayban Life in October 1994.

Mr. Toi is a Fellow of the Faculty of Actuaries, Scotland since 1992 and sits on the Board of The Malaysian Insurance Institute (MII), L.I.A.M. Property Sdn. Bhd., L.I.A.M. Holding Sdn. Bhd. and Malaysia Rating Corporation Bhd. (MARC).

Company No. 417867-K

ii. Profile of Directors (continued)

Y. BHG. DATO' MUTHANNA ABDULLAH INDEPENDENT NON-EXECUTIVE DIRECTOR

Y. Bhg. Dato' Muthanna Abdullah, aged 58, was appointed to the Board of the Company on 18 July 2016.

Dato' Muthanna leads the Aviation and Aerospace practice in Abdullah Chan & Co. In the Aviation sector, he has acted for numerous clients on their acquisition, financing and operation of corporate/private jets and helicopters. He also advises clients on the ownership structures which are tailored to each client's particular usage, tax profile and risk management. He has more than 30 years of experience in law practice, having advised commercial companies, public listed companies and state governments and agencies, privatizations, joint-ventures, corporate structures, offshore investments, and mergers and acquisitions.

Dato' Muthanna graduated from the University of Buckingham, England, and is a Barrister of the Middle Temple, England. He was admitted and enrolled as an advocate and solicitor of the High Court of Malaya in 1984.

Dato' Muthanna sits on the Board of Directors of Sapura Resources Bhd., Malaysian Rating Corporation Bhd., BIB Insurance Brokers Sdn. Bhd., BIB Asia (L) Bhd., Abdullah & Esah Sdn. Bhd., Quarry Ventures Sdn. Bhd., Quarry Ventures Holdings Sdn. Bhd., Opcom Cables Sdn. Bhd., and IA Synergy Sdn. Bhd..

MR. CHEE SIEW ENG INDEPENDENT NON-EXECUTIVE DIRECTOR

Mr. Chee Siew Eng, aged 66, was appointed to the Board of the Company on 20 April 2012. He joined Bank Negara Malaysia (BNM) in 1988 as a Senior Executive and was the Deputy Director of the Insurance Regulation Department in BNM prior to his retirement in 2008.

Mr. Chee was engaged as a consultant to assist Perbadanan Insurans Deposit Malaysia (PIDM) in formulating a new framework and legislation for the Insurance Compensation Scheme in Malaysia which was enacted under the Malaysia Deposit Insurance Corporation Act in 2010.

Having 30 years of experience as a regulator of the insurance industry, Mr. Chee was involved in formulating many guidelines, rules and regulations to foster the growth and development of the insurance industry.

Mr. Chee is an Associate member of the Malaysian Insurance Institute as well as the Chartered Insurance Institute, UK (ACII). He sits on the Board of Tune Insurance Malaysia Bhd..

Company No. 417867-K

Corporate governance (continued)

ii. Profile of Directors (continued)

EN. AHMAD SUBRI ABDULLAH INDEPENDENT NON-EXECUTIVE DIRECTOR

En. Ahmad Subri bin Abdullah, aged 68, was appointed to the Board of the Company on 10 November 2017.

En. Subri brings with him over 30 years of experience in the financial services industry; almost 20 years as Chief Executive Officer of various insurance companies such as Amanah Insurance Bhd., Malaysia Cooperative Insurance Society Bhd., Mayban Life Assurance Bhd. and Malaysia National Insurance Bhd.. He had also served as Chairman of the General Insurance Association of Malaysia and Chairman of the Insurance Mediation Bureau of Malaysia.

En. Subri qualified as a Fellow of the Chartered Insurance Institute, United Kingdom and is a Fellow of the Malaysian Insurance Institute. Prior to his return to Malaysia in 1980, he has trained and worked in London for more than 7 years. Currently, En. Subri sits on the Board of a number of private and public companies in Malaysia and Singapore.

All the directors of the Company have attended the Financial Institutions Directors' Education Programme (FIDE).

iii. Responsibilities of the Board

The board has the overall responsibility of promoting the sustainable growth and financial soundness of the Company, and ensuring reasonable standards of fair dealing, without undue influence from any party. This includes a consideration of the long-term implications of the board's decisions on the Company and its clients, employees and the community. In fulfilling this role, the board must:

- (i) approve the risk appetite, business plans and other initiatives which would, singularly or cumulatively, have a material impact on the Company's risk profile. This would include initiatives which affect the financial soundness, reputation or key operational controls of the Company.
- (ii) oversee the selection, performance, remuneration and succession plans of the CEO, control function heads and other members of senior management, such that the board is satisfied with the collective competence of senior management to effectively lead the operations of the Company.
- (iii) oversee the implementation of the financial institution's governance framework and internal control framework, and periodically review whether these remain appropriate in light of material changes to the size, nature and complexity of the Company's operations.

Company No. 417867-K

Corporate governance (continued)

iii. Responsibilities of the Board (continued)

- (iv) promote, together with senior management, a sound corporate culture within the Company which reinforces ethical, prudent and professional behavior.
- (v) promote sustainability through appropriate environmental, social and governance considerations in the Company's business strategies.
- (vi) oversee and approve the recovery and resolution as well as business continuity plans for the Company to restore its financial strength, and maintain or preserve critical operations and critical services when it comes under stress.
- (vii) promote timely and effective communication between the financial institution and the BNM on matters affecting or that may affect the safety and soundness of the Company.

iv. Responsibilities of the Board Committees

The duties and responsibilities of the Board Committees are as follows:

Audit Committee

- (i) To review and report on the adequacy of the scope, functions and resources of the internal audit function and whether it has the necessary authority to carry out its work.
- (ii) To review the results of the internal and external audits conducted and the adequacy of actions taken by management on the recommendations of these audit reports.
- (iii) To review with the external auditors the audit plan, scope of the audit and the audit findings of the Company.
- (iv) To review the annual audited financial statements of the Company and thereafter submit them to the Board for approval.
- (v) To review the adequacy and effectiveness of internal control systems instituted within the Company.
- (vi) To review any related party transactions that may arise within the Company.
- (vii) To oversee the overall implementation of the Company's approved policies and procedures and review management's periodic review of them for continued effectiveness.
- (viii) To perform any other functions as may be agreed by the Audit Committee and the Board of Directors.

Company No. 417867-K

Corporate governance (continued)

iv. Responsibilities of the Board Committees (continued)

Risk Management Committee

- (i) To review and recommend risk management strategies, policies and risk tolerance for the Board's approval.
- (ii) To review and assess the adequacy of risk management policies and framework for identifying, measuring, monitoring and controlling risks as well as the extent to which these are operating effectively.
- (iii) To oversee and ascertain that there are adequate infrastructure, resources and systems in place for an effective risk management and that the personnel responsible for implementing the Company's risk management systems perform those duties independently of the Company's risk taking activities.
- (iv) To review management's periodic reports on risk exposure, risk portfolio composition and risk management activities.
- (v) To review and assess the risk capital profiles to ensure adequacy of capital available in the insurance and shareholders' equity to support the total capital required as specified in the Risk-Based Capital Framework for Insurers issued by Bank Negara Malaysia.
- (vi) To ensure that the investments of insurance funds are in accordance with the approved investment and risk management policy of the Board.
- (vii) To perform any other functions in relation to risk management as may be agreed by the Risk Management Committee and the Board of Directors.

Nomination Committee

- (i) To establish the minimum requirements for the Board of Directors and the Chief Executive Officer to perform their responsibilities effectively. It is also responsible for overseeing the overall composition of the Board in terms of the appropriate size and skills, the balance between Executive Directors, Non-Executive and Independent Directors, and mix of skills and other core competencies required, through annual reviews.
- (ii) To recommend and assess the nominees for directorship, the Directors to fill Board Committees, as well as nominees for the Chief Executive Officer position. This includes assessing Directors and the Chief Executive Officer proposed for reappointment, before an application for approval is submitted to Bank Negara Malaysia.
- (iii) To establish a mechanism for formal assessment and assessing the effectiveness of the Board as a whole, the contribution by each director to the effectiveness of the Board, the contribution of the Board's various committees and the performance of the Chief Executive Officer.

Company No. 417867-K

Corporate governance (continued)

iv. Responsibilities of the Board Committees (continued)

Nomination Committee (continued)

- (iv) To recommend to the Board on removal of a Director/Chief Executive Officer if he is ineffective, errant or negligent in discharging his responsibilities.
- (v) To ensure that all Directors undergo appropriate induction programmes and receive continuous training.
- (vi) To oversee appointment, management succession planning and performance evaluation of key Senior Officers, and recommend to the Board on the removal of key Senior Officers if they are ineffective, errant and negligent in discharging their responsibilities.

Remuneration Committee

- (i) To recommend a framework of remuneration for Directors, Chief Executive Officer and key Senior Officers.
- (ii) To recommend specific remuneration packages for Directors, Chief Executive Officer and key Senior Officers.

Investment Committee

- (i) To recommend and oversee implementation of policies, guidelines and controls for the investment activities of the Company.
- (ii) To monitor the performance of the company's investments including the performance of external fund managers.
- (iii) To review and report to the Board on a regular basis the investment portfolio to ensure compliance with BNM's guidelines on investment.
- (iv) To review and recommend to the Board major investment proposals.

Company No. 417867-K

Corporate governance (continued)

v. Remuneration framework

Remuneration policy

The remuneration policy for employees of the Company enables the furtherance of the Company's vision and mission by aligning employee performances with the Company's short and long term goals. Employee remunerations are supported by a robust performance management system underpinned by the fundamentals of sound risk management, ethics and corporate responsibility. Components within the remuneration structure consist of mandatory elements with the flexibility for combinations of fixed and variable components to ensure effective alignment to the Company's objectives and relevance to the industry in which it operates.

The Company's remuneration policy applies to all employees in the Company and revolves around key principles as follows:-

Business oriented

Remunerations are relevant and aligned to the achievement of the Company's business results. Remunerations are designed in a way that drives employees' diligence, dedication and competency level towards successful implementation of the Company's goals and strategies while avoiding any conflict of interests.

Prudent

The remuneration structure and quantum reinforces sustainable, ethical and sound risk management behaviours, as opposed to a short-term view without consideration of long term consequences.

Adequate information

Performance assessors must have adequate quantitative and qualitative measurements of an employee's performance before any recommendation on remuneration is made. The assessments upon which remunerations are recommended must be practicable, measureable and objective.

Fair

Remuneration packages must take the Company's business, its financial position, market condition and individual merits into consideration. There must be no discrimination, biased treatment or any form of exploitation in regards to the remuneration packages.

Transparent

There must be clear and timely communication of remuneration linked to the specified job requirements. Employees should be clear on the expectations of their job and seek clarification where necessary.

Company No. 417867-K

Corporate governance (continued)

v. Remuneration framework (continued)

Remuneration structure

The Company's remuneration structure rewards employees whose job performance and behavior support the objectives of the Company's business. A performance appraisal system is in place to gauge these performances and behaviours. The system incorporates key performance indicators aligned to the employee's job function. Instances of non-compliance with risk procedures and expected behaviours would be taken into account when appraising an employee's performance. If performance criterias are not met, salary increments and/or variable remuneration will be reduced accordingly.

The performance appraisal process is guided by performance management and remuneration policies. Every remuneration recommendation is prepared, approved and recorded appropriately. Where statutory requirements apply, remunerations are submitted accordingly.

Components within the remuneration structure consist of mandatory elements with the flexibility on the mix of fixed and variable components. The structure is monitored to ensure alignment to the Company's objectives, local employment market and industry. The Company's existing remuneration structure comprise salary (fixed), benefits (fixed), performance bonus (variable) and incentives (variable).

Salary

All employees in the Company receive a fixed base salary paid monthly according to position and function. The salary level is evaluated annually with no secured or contractual increment. Increment rates are granted based on performance scoring and position levels. These rates are determined by the Board of Directors taking into consideration the Company's performance, market and industry conditions.

Base salaries for entry level candidates are predetermined and reviewed as and when necessary to remain competitive. Base salaries for experienced candidates are guided by the Company's internal salary scale whilst taking into account the industry's employment market condition.

Benefits

The main purpose of compensation and benefits is to ease employees' burdens as they work for the Company. Key and senior level positions are offered benefits and compensations in order to mitigate key man risks and encourage employee retention. The Company's benefits programme is reviewed as and when the need arises.

Company No. 417867-K

Corporate governance (continued)

v. Remuneration framework (continued)

Remuneration structure (continued)

Performance Bonus

The Company uses variable cash remuneration in the form of performance bonuses to incentivise and reward high performance employees. The quantum of bonuses granted for the year depend on the performance of the Company's financial and non-financial targets and the employee's performance appraisal.

Incentives

The Company has in place deferred variable cash incentives awarded to key and senior level positions. The incentives serve to reduce key man risk, encourage employee retention and align employee actions to the Company's objectives. The quantum of these incentives depend on the performance of the Company's financial and non-financial targets and the meeting of employees' key performance objectives.

Senior management and other material risk takers

Senior management, as defined by BNM in their CG PD refers to the CEO and senior officers. It comprises employees in the following roles:

- i) Chief Executive Officer (1)
- ii) Heads of Departments (6)

Other material risk takers are defined as employees who are not members of the senior management and :-

- i) can materially commit or control significant amounts of the Company's resources or whose actions are likely to have a significant impact on its risk profile; or
- ii) are among the most highly remunerated officers in the Company.

There were 3 other material risk takers in the Company at the date of this report.

Company No. 417867-K

Corporate governance (continued)

v. Remuneration framework (continued)

Senior management and other material risk takers (continued)

Total Value of Remuneration Awards for the financial year	Unrestricted	Deferred		No. of Staff
		Total Paid	Outstanding*	
Fixed Remuneration				
- Cash-based	2,429,831	Nil	Nil	10
- Shares and share-linked instruments	Nil	Nil	Nil	Nil
- Others	30,400	Nil	Nil	3
Variable Remuneration				
- Cash-based	1,383,236	519,119	2,362,446	10
- Shares and share-linked instruments	Nil	Nil	Nil	Nil

* Outstanding Deferred Remuneration refers to the amount already vested but not paid as at balance sheet date.

Staff were not exposed to actual derived information of Implicit Adjustments (such as fluctuations in the value of any shares or performance units) and Explicit Adjustments (such as malus, clawbacks or similar reversals or downward revaluations of awards) due to Deferred and Retained Remuneration in the current financial year.

Company No. 417867-K

Corporate governance (continued)

vi. Internal Control Framework

The Compliance and Risk (“CR”) Department is established with the responsibility to manage the Company’s Risk and Compliance functions.

The CR Department identifies and communicates to the Risk Management Committee (“RMC”) critical risks in terms of exposures and impact on the Company’s business and management action plans to manage these risks on an on-going basis. Risks are actively identified, assessed and monitored by the CR Department. Heads of departments, who are specialized and experienced in their respective business areas remain available to provide advice to the CR Department on key risks relevant to their respective operations.

The CR Department ensures that the Company complies with all legal and regulatory requirements applicable to the Company’s business activities. The Heads of departments hold the primary responsibility to manage risks in their respective business areas.

A Compliance framework is in place to facilitate the reporting and monitoring of non-compliance events in the Company. A risk framework is also in place which facilitates the management and monitoring of the Company’s risks including an Internal Capital Adequacy Assessment Process (“ICAAP”) framework which complies with guidelines issued by BNM. The frameworks are reviewed annually.

The outsourced Internal Audit consultant (“IAC”) reviews the Company’s compliance programme as well as the effectiveness of the internal control systems. The findings of internal audit are tabled at the Audit Committee (“AC”) meetings for deliberation and the AC’s expectation on the corrective measures are communicated to the respective Heads of departments. The annual Internal Audit Plan is reviewed by the AC and thereafter recommended to the Board for approval.

Other key elements of the internal control framework

Updates of regulatory guidelines and circulars are circulated to the Chief Executive Officer and Heads of departments for information and to address any gap in operational policies and procedures.

Policies and procedures, which incorporate regulatory and internal requirements, are prescribed in the form of operation manuals and circulars. The manuals are updated as and when necessary.

Operational authority limits as prescribed in the Company’s policies and procedures are imposed on Management in respect of key operations covering areas such as pricing, underwriting, claims, premium checking, investments, expenses, payments, acquisition and disposal of assets.

Retrocessions where appropriate are undertaken to ensure that the Company’s claim risks are sufficiently diversified and mitigated.

Company No. 417867-K

Corporate governance (continued)

vi. Internal Control Framework (continued)

Other key elements of the internal control framework (continued)

Management submits annually a business plan and budget for approval by the Board. The Board reviews quarterly management accounts, which are measured against budgets and the previous year's results to gauge performance.

Risk management reports that highlight the status of identified core risk profiles and any other risk matters are submitted to the RMC and the Board quarterly.

Stress tests are performed on the Company's financial position which commensurate with its risk profile and the business environment. The stress test, under the Financial Condition Report ("FCR"), is used as a risk management tool to identify potential threats to the Company's financial health from exceptional but plausible adverse events and to determine as well as assess its impact on the Company's Individual Target Capital Level. The FCR is deliberated at the Board for approval before submission to BNM.

A Data Management and Management Information System ("MIS") Framework is formulated in line with the Guidelines on Data Management and MIS Framework issued by BNM. Maintenance of data is performed and reviewed by Heads of departments.

The Investment Committee is responsible for formulating policies, strategies as well as reviewing matters relating to the Company's investment of surplus funds.

The Business Continuity Plan ("BCP") is managed by the CR Department. The BCP is to ensure that the Company suffers minimum interruption to its systems, processes or operations in the event of a disaster. The BCP manual is reviewed at least once a year while the plan is tested twice a year to ensure its relevance. BCP testings are observed by the IAC who provides an independent evaluation of the testing preparation and to highlight any deficiencies noted during the testings. A written assessment report is prepared by the IAC for the Audit Committee's review and the Board's approval before submission to BNM as required under the Guidelines on Business Continuity Management (Revised).

Training and development programmes are conducted to enhance staff competencies and to instill among the team a risk management and compliance conscious culture.

There are procedures for hiring and termination of staff. Annual performance appraisals are in place to assess performance and as a basis for staff remuneration awards and career development within the Company.

Company No. 417867-K

Issue of shares and debentures

There were no changes in the issued and paid-up capital of the Company during the financial year.

There was no debenture issued during the financial year.

Options granted over unissued shares

No options were granted to any person to take up unissued shares of the Company during the financial year.

Other statutory information

Before the financial statements of the Company were made out, the Directors took reasonable steps to ascertain that:

- i) there was adequate provision for its insurance liabilities in accordance with the valuation methods specified in Part D of the Risk-Based Capital Framework for Insurers,
- ii) all known bad debts have been written off and adequate provision made for doubtful debts, and
- iii) any current assets which were unlikely to be realised in the ordinary course of business at their values as shown in the accounting records of the Company have been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- i) that would render the amount of the provision for insurance liabilities inadequate to any substantial extent, or
- ii) that would render the amount written off for bad debts, or the amount of the provision for doubtful debts in the Company inadequate to any substantial extent, or
- iii) that would render the value attributed to the current assets in the financial statements of the Company misleading, or
- iv) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Company misleading or inappropriate, or
- v) not otherwise dealt with in this report or the financial statements, that would render any amount stated in the financial statements of the Company misleading.

Company No. 417867-K

Other statutory information (continued)

At the date of this report, there does not exist:

- i) any charge on the assets of the Company that has arisen since the end of the financial year and which secures the liabilities of any other person, or
- ii) any contingent liability in respect of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Company to meet its obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the Company for the financial year ended 31 December 2017 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

Holding company

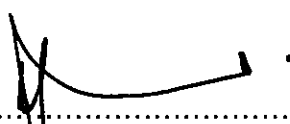

The holding company is L.I.A.M. Holding Sdn. Bhd., a company incorporated in Kuala Lumpur, Malaysia which holds 70% of the Company's share capital. Its principal activity is that of investment holding.

Auditors

The auditors, KPMG PLT, have indicated their willingness to accept re-appointment.

The auditors' remuneration is RM215,000 for the financial year ended 31 December 2017.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors:

Malaysian Life Reinsurance Group Berhad

(Company No. 417867-K)

(Incorporated in Malaysia)

Notes to the financial statements

1. Corporate information and principal activities

Malaysian Life Reinsurance Group Berhad is a public limited liability company, incorporated and domiciled in Malaysia.

The number of employees of the Company as at the end of the financial year was 53 (2016: 48).

The address of the registered office and principal place of business of the Company are as follows:

Registered office and principal place of business

Unit 39-A-6
Level 39, Tower A
Menara UOA Bangsar
No.5 Jalan Bangsar Utama 1
59000 Kuala Lumpur

The Company is principally engaged in the underwriting of life and health reinsurance business. There has been no significant change in the nature of this activity during the financial year.

The immediate and ultimate holding company is L.I.A.M. Holding Sdn. Bhd., a company incorporated in Malaysia.

These financial statements were authorised for issue by the Board of Directors on 27 March 2018.

2. Basis of preparation

(a) Statement of compliance

The financial statements of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards, Financial Services Act, 2013 and the requirements of the Companies Act 2016 in Malaysia.

Company No. 417867-K

2. Basis of preparation (continued)

(a) Statement of compliance (continued)

The following are accounting standards, amendments and interpretations that have been issued by the Malaysian Accounting Standards Board (“MASB”) but have not been adopted by the Company:

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2018

- MFRS 9, *Financial Instruments (2014)*
- MFRS 15, *Revenue from Contracts with Customers*
- Clarifications to MFRS 15, *Revenue from Contracts with Customers*
- IC Interpretation 22, *Foreign Currency Transactions and Advance Consideration*
- Amendments to MFRS 1, *First-time Adoption of Malaysian Financial Reporting Standards (Annual Improvements to MFRS Standards 2014-2016 Cycle)*
- Amendments to MFRS 2, *Share-based Payment – Classification and Measurement of Share-based Payment Transactions*
- Amendments to MFRS 4, *Insurance Contracts – Applying MFRS 9 Financial Instruments with MFRS 4 Insurance Contracts*
- Amendments to MFRS 128, *Investments in Associates and Joint Ventures (Annual Improvements to MFRS Standards 2014-2016 Cycle)*
- Amendments to MFRS 140, *Investment Property – Transfers of Investment Property*

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2019

- MFRS 16, *Leases*
- IC Interpretation 23, *Uncertainty over Income Tax Treatments*
- Amendments to MFRS 3, *Business Combinations (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 9, *Financial Instruments – Prepayment Features with Negative Compensation*
- Amendments to MFRS 11, *Joint Arrangements (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 112, *Income Taxes (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 123, *Borrowing Costs (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 128, *Investments in Associates and Joint Ventures – Long-term Interests in Associates and Joint Ventures*

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2021

- MFRS 17, *Insurance Contracts*

MFRSs, Interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

- Amendments to MFRS 10, *Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Company No. 417867-K

2. Basis of preparation (continued)

(a) Statement of compliance (continued)

The Company plans to apply the abovementioned accounting standards, amendments and interpretations:

- from the annual period beginning on 1 January 2018 for those accounting standards, amendments and interpretation that are effective for annual periods beginning on or after 1 January 2018, except for amendments to MFRS 2, MFRS 15, amendments to MFRS 128, and amendments to MFRS 140 which are not applicable to the Company and MFRS 9 which the Company is eligible for temporary exemption that permits, but does not require, the insurer to apply MFRS 139 *Financial Instruments: Recognition and Measurement* rather than MFRS 9 for annual periods beginning before 1 January 2021.
- from the annual period beginning on 1 January 2019 for those accounting standard, amendments and interpretation that are effective for annual periods beginning on or after 1 January 2019, except for amendments to MFRS 128 which is not applicable to the Company.
- from the annual period beginning on 1 January 2021 for the accounting standard that is effective for annual periods beginning on or after 1 January 2021.

The initial application of the applicable accounting standards, amendments or interpretations are not expected to have any material financial impact to the current period and prior period financial statements of the Company except as mentioned below:

MFRS 9, *Financial Instruments*

MFRS 9 replaces the guidance in MFRS 139, *Financial Instruments: Recognition and Measurement* on the classification and measurement of financial assets and financial liabilities, and on hedge accounting. The Company intends to apply the temporary exemption from applying MFRS 9 afforded in Amendments to MFRS 4 and will adopt the standard for annual periods beginning 1 January 2021.

The Company is currently assessing the financial impact that may arise from the adoption of MFRS 9.

MFRS 15, *Revenue from Contracts with Customers*

MFRS 15 replaces the guidance in MFRS 111, *Construction Contracts*, MFRS 118, *Revenue*, IC Interpretation 13, *Customer Loyalty Programmes*, IC Interpretation 15, *Agreements for Construction of Real Estate*, IC Interpretation 18, *Transfers of Assets from Customers* and IC Interpretation 131, *Revenue - Barter Transactions Involving Advertising Services*.

The Company does not expect any material financial impact to the current period and prior period financial statements of the Company upon initial application of the Standard.

Company No. 417867-K

2. Basis of preparation (continued)

(a) Statement of compliance (continued)

MFRS 16, Leases

MFRS 16 replaces the guidance in MFRS 117, *Leases*, IC Interpretation 4, *Determining whether an Arrangement contains a Lease*, IC Interpretation 115, *Operating Leases – Incentives* and IC Interpretation 127, *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*.

The Company is currently assessing the financial impact that may arise from the adoption of MFRS 16.

MFRS 17, Insurance Contracts

MFRS 17 was issued by MASB in August 2017. The standard will replace the existing MFRS 4 and establishes the principles for recognition, measurement, presentation and disclosure of insurance contracts.

The Company is currently assessing the financial impact that may arise from the adoption of MFRS 17.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 3(c)(ii).

(c) Functional and presentation currency

These financial statements are presented in Ringgit Malaysia (“RM”), which is the Company’s functional currency. All financial information is presented in RM and has been rounded to the nearest thousand, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than those disclosed in the following notes:

Note 3 (i)(i) – Premium liabilities

Note 3 (i)(ii) – Claims liabilities

Company No. 417867-K

3. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

(a) Foreign currency

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rates at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting period, except for those that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments or a financial instrument designated as a hedge of currency risk, which are recognised in other comprehensive income.

(i) Recognition and measurement

Items of plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and is recognised net within "other income" and "other expenses" respectively in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

Company No. 417867-K

3. Significant accounting policies (continued)

(b) Plant and equipment (continued)

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment from the date that they are available for use. The estimated useful lives for the current and comparative periods are as follows:

Motor vehicles	5 years
Office equipment	5 years
Furniture, fixtures and fittings	5 years
Computers	3 years
Renovation	5 years

Depreciation methods, useful lives and residual values are reassessed at the end of the reporting period, and adjusted as appropriate.

(c) Financial instruments

(i) Initial recognition and measurement

A financial asset or financial liability is recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised initially, at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

An embedded derivative is recognised separately from the host contract and accounted for as a derivative if, and only if, it is not closely related to the economic characteristics and risks of the host contract and the host contract is not categorised as fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

3. Significant accounting policies (continued)

(c) Financial instruments (continued)

(ii) Financial instrument categories and subsequent measurement

The Company categorises and measures financial instruments as follows:

Financial assets

(a) Available-for-sale financial assets

Available-for-sale category comprises investment in equity, debt securities and unit trust funds, as applicable that are not held for trading.

Financial assets categorized as available-for-sale are subsequently measured at their fair values with the gain or loss recognized in other comprehensive income, except for impairment losses, foreign exchange gains and losses arising from monetary items and gains and losses of hedged items attributable to hedge risks of fair value hedges which are recognized in profit or loss. On derecognition, the cumulative gain or loss recognized in other comprehensive income is reclassified from equity into profit or loss. Interest calculated for a debt instrument using the effective interest method is recognized in profit or loss.

(b) Held-to-maturity investments

Held-to-maturity investments category comprises debts instruments that are quoted in an active market and the Company has the positive intention and ability to hold them to maturity.

Financial assets categorised as held-to-maturity are subsequently measured at amortised cost using the effective interest method.

(c) Loans and receivables, excluding insurance receivables

Loans and receivables category comprises debt instruments that are not quoted in an active market (including fixed deposits with financial institutions).

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest method.

3. Significant accounting policies (continued)

(c) Financial instruments (continued)

(ii) Financial instrument categories and subsequent measurement (continued)

(d) *Insurance receivables*

Insurance receivables are recognised when due and measured on initial recognition at the fair value of the consideration received or receivable. Subsequent to initial recognition, insurance receivables are measured at amortised cost, using the effective yield method.

If there is objective evidence that the insurance receivable is impaired, the Company reduces the carrying amount of the insurance receivable accordingly and recognises that impairment loss in profit or loss. The Company gathers the objective evidence that an insurance receivable is impaired using the same process adopted for financial assets carried at amortised cost. The impairment loss is calculated under the same method used for those financial assets. These processes are described in Note 3(e)(ii).

Insurance receivables are derecognised when the derecognition criteria for financial assets, as described in Note 3(c)(iv), have been met.

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment (see Note 3 (e)(i)).

Financial liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Fair value through profit or loss category comprises financial liabilities that are derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial liabilities that are specifically designated into this category upon initial recognition.

Derivatives that are linked to and must be settled by delivery of equity instruments that do not have a quoted price in an active market for identical instruments whose fair values otherwise cannot be reliably measured are measured at cost.

Financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

3. Significant accounting policies (continued)

(c) Financial instruments (continued)

(iii) Regular way purchase or sale of financial assets

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

A regular way purchase or sale of financial assets is recognised and derecognised, as applicable, using trade date accounting. Trade date accounting refers to:

- (a) the recognition of an asset to be received and the liability to pay for it on the trade date, and
- (b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

(iv) Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or control of the asset is not retained or substantially all risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in the profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(d) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in value with original maturities of three months or less, and are used by the Company in the management of their short term commitment.

3. Significant accounting policies (continued)

(e) Impairment

(i) Financial assets, excluding insurance receivables

All financial assets (except for financial assets categorised as fair value through profit or loss) are assessed at each reporting date whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. Losses expected as a result of future events, no matter how likely, are not recognised. For an investment in an equity instrument, a significant or prolonged decline in the fair value below its cost is an objective evidence of impairment. If any such objective evidence exists, then the impairment loss of the financial asset is estimated.

An impairment loss in respect of loans and receivables (excluding insurance receivables as set out in Note 3(e)(ii) below) and held-to-maturity investments is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account.

An impairment loss in respect of available-for-sale financial assets is recognized in profit or loss and is measured as the difference between the asset's acquisition cost (net of any principal repayment and amortisation) and the asset's current fair value, less any impairment loss previously recognised. Where a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income, the cumulative loss in other comprehensive income is reclassified from equity to profit or loss.

An impairment loss in respect of unquoted equity instrument that is carried at cost is recognised in profit or loss and is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale is not reversed through profit or loss.

If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed, to the extent that the asset's carrying amount does not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in profit or loss.

3. Significant accounting policies (continued)

(e) Impairment (continued)

(ii) Insurance receivables

Insurance receivables are assessed at each reporting date whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. Losses expected as a result of future events, no matter how likely, are not recognised. An objective evidence of impairment is deemed to exist where the principal or interest or both for insurance receivables is past due for more than 90 days or 3 months, as prescribed in the Guidelines on Financial Reporting for Insurers issued by Bank Negara Malaysia.

An impairment loss in respect of insurance receivables is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount of the insurance receivables is reduced through the use of an allowance account.

If, in a subsequent period, the fair value of insurance receivables increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed, to the extent that the asset's carrying amount does not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in the profit or loss.

(iii) Other assets

The carrying amounts of other assets (except for deferred tax assets) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognized if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

3. Significant accounting policies (continued)

(e) Impairment (continued)

(iii) Other assets (continued)

Impairment losses are recognised in profit and loss. Impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

(f) Product classification

The Company issues contracts that transfer insurance risk.

Reinsurance contracts are those contracts that transfer significant insurance risk. A reinsurance contract is a contract under which the Company (the reinsurer) has accepted significant insurance risk from another party (the cedant) by agreeing to compensate the cedant if a specified uncertain future event (the insured event) adversely affects the cedant. Insurance risk is significant if, and only if, an insured event could cause the Company to pay significant additional benefits.

Once a contract has been classified as a reinsurance contract, it remains a reinsurance contract for the remainder of its life-time, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or expired.

(g) Reinsurance

The Company retrocedes insurance risk in the normal course of business for all of its businesses. Reinsurance assets represent balances due from retrocessionaires. Amounts recoverable from retrocessionaires are estimated in a manner consistent with the outstanding claims provision or settled claims associated with the retrocessionaire's policies and are in accordance with the related retrocession contracts.

Retroceded reinsurance arrangements do not relieve the Company from its obligations to cedants. Premiums and claims are presented on a gross basis for both retroceded and assumed reinsurance.

Reinsurance assets are reviewed for impairment at each reporting date or more frequently when an indication of impairment arises during the reporting period. Impairment occurs when there is objective evidence as a result of an event that occurred after initial recognition of the reinsurance asset that the Company may not receive all outstanding amounts due under the terms of the contract and the event has a reliably measurable impact on the amounts that the Company will receive from the retrocessionaire. The impairment loss is recorded in profit or loss.

Company No. 417867-K

3. Significant accounting policies (continued)

(h) Reinsurance commission

Reinsurance commission, which are costs directly incurred in securing reinsurance premiums on reinsurance, and income derived from retrocessionaires in the course of ceding of premiums to retrocessionaires, are charged to profit or loss in the period in which they are incurred or deferred where appropriate.

(i) Life reinsurance underwriting results

Any surplus transferable from the Life Fund to profit or loss is based on the surplus determined by an annual actuarial valuation of the long term liabilities to cedants. Actuarial valuation reserves comprise premium liabilities and claim liabilities.

(i) Premium liabilities

Premium liabilities is the higher of the aggregate of the Unearned Premium Reserve (UPR) for all lines of business and the best estimate value of the Unexpired Risk Reserve (URR) at the required risk margin for adverse deviation.

Unearned Premium Reserves

The UPR represents the portion of the net premium income of a reinsurance contract written that relates to the unexpired periods of the contract at the end of the financial year.

In determining the UPR at the reporting date, the method that most accurately reflects the actual unearned premium is used. 1/8th method is applied to gross premiums.

Unexpired Risk Reserve

The URR is the prospective estimate of the expected future payments arising from future events insured under policies in force as at the valuation date and also includes allowance for the reinsurer's expenses, including overheads and cost of retrocession, expected to be incurred during the unexpired period in administering these treaties and settling the relevant claims, and expected future premium refunds.

3. Significant accounting policies (continued)

(i) Life reinsurance underwriting results (continued)

(ii) Claims liabilities

Outstanding claims provision is based on the estimated ultimate cost of all claims incurred but not settled at the reporting date, whether reported or not, together with related claims handling costs and recoveries. Delays can be experienced in the notification and settlement of certain types of claims, therefore, the ultimate cost of these claims cannot be known with certainty at the reporting date. The liability is calculated at the reporting date using a range of standard actuarial claim projection techniques based on empirical data and current assumptions that included a regulatory risk margin for adverse deviation. The liability is not discounted for the time value of money. No provision for equalisation or catastrophe reserves is recognised. The liabilities are derecognised when the contract expires, is discharged or is cancelled.

Estimating the outstanding claims provision involves projection of the Company's future claims experience based on current claims experience. As with all projections, there are elements of uncertainty and thus the projected future claims experience may be different from its actual claims experience due to the level of uncertainty involved in projecting future claims experience based on past claims experience. These uncertainties arise from changes in underlying risks, changes in spread of risks, claims settlement as well as uncertainties in the projection model and underlying assumptions.

(j) Acquisition costs

The cost of acquiring and renewing reinsurance contracts net of income derived from retroceding reinsurance premiums is recognised as incurred and properly allocated to the periods in which it is probable they give rise to income based on the method specified in Note 3(i)(i). Acquisition costs or retroceding income which are not recoverable, or not payable in the event of a termination of the policy to which they relate, are not deferred but are recognised in the period in which they occur.

(k) Equity instrument

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.

Ordinary shares

Ordinary shares are classified as equity.

Company No. 417867-K

3. Significant accounting policies (continued)

(l) Premium income

The Company recognises reinsurance premiums on an accrual basis. Gross premium is reduced by discount on premiums, if any.

(m) Interest income

Interest income is recognised as it accrues using the effective interest method in profit or loss.

(n) Leased assets

Operating lease

Leases, where the Company does not assume substantially all the risks and rewards of ownership are classified as operating leases and the leased assets are not recognised on the statement of financial position.

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

(o) Employee benefits

(i) Short-term employee benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or incentive schemes if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Long-term incentive plans

A liability is recognised on an undiscounted basis for the amount expected to be paid for the incentive plan if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(iii) State plans

The Company's contributions to the statutory pension funds are charged to profit or loss in the financial year in which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payment is attributable.

3. Significant accounting policies (continued)

(p) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in statement of financial position and their tax bases. Deferred tax is not recognised for the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(q) Affiliated company

An affiliated company is defined as one that directly or indirectly controls between 20% to 50% of the equity interest in the Company.

(r) Provisions

A provision is recognised if, as a result of a past event, the Company has a present, legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

3. Significant accounting policies (continued)

(s) Fair value measurements

Fair value of an asset or a liability is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair value are categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can assess at the measurement date.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability.

The Company recognises transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

26. Operating lease commitments

Lease as lessee

Total future minimum lease payments under the non-cancellable operating leases are as follows:

	2017 RM '000	2016 RM '000
Payable within 1 year	682	598
Payable between 1 and 5 years	612	-
	<u>1,294</u>	<u>598</u>

The Company leases its current office premises with third parties for periods ranging from one to two years.

27. Capital commitments

There was no capital commitment as at the end of the current and previous financial years.

28. Related parties

Identity of related parties

For the purposes of these financial statements, parties are considered to be related to the Company if the Company has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or common significant influence. Related parties may be individuals or other entities. The related parties of the Company are:

Company No. 417867-K

28. Related parties (continued)

Identity of related parties (continued)

i) Holding company

The holding company is L.I.A.M. Holding Sdn. Bhd., a company incorporated in Malaysia.

ii) Affiliated company

An affiliated company is a company that directly or indirectly controls between 20% to 50% of the equity interest in the Company.

iii) Key management personnel

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Company either directly or indirectly. The key management personnel include the Chief Executive Officer and all the Directors of the Company. Key management personnel remuneration is disclosed in Note 22 to the financial statements.

Significant related party transactions

Related party transactions have been entered into in the normal course of business under normal trade terms. The significant related party transactions of the Company are shown below. The balances related to the below transactions are shown in Notes 7, 13 and 14.

	2017 RM '000	2016 RM '000

Claims recoverable	115,292	93,353

Company No. 417867-K

29. Risk management framework

The risk management framework of the Company is as follows:

- The Risk Management Committee was established to drive the risk management processes in identifying principal business risks and the implementation of appropriate systems to manage these risks.
- Independent risk management and control functions under Internal Audit are responsible to ascertain that the risk policies are implemented and complied with.
- The Management of respective Business Units are responsible for identifying, mitigating risks within their lines of business and ensure that their day-to-day business activities are carried out in accordance with the established risk policies, procedures and limits.
- Audit Committee, supported by Internal Audit, is established to provide an independent assessment of the adequacy and reliability of the risk management processes and system of internal controls and compliance with risk policies, laws, internal and regulatory guidelines.
- Risk Management policies are reviewed at least yearly to ensure they remain relevant and effective and managing the associated risks due to changes in the market and regulatory environments.

Capital Management

Pursuant to the Risk-Based Capital Framework for Insurers issued by Bank Negara Malaysia (“BNM”), the Board approved and adopted a Capital Management Plan (“CMP”) for the Company in line with the requirements set out in the Risk-Based Capital Framework with effect from 1 January 2009. The objective of the CMP and the Company’s policy are to create shareholders’ value, deliver sustainable returns to shareholders, and maintain a strong capital position with optimum buffer to meet the Company’s obligations and regulatory requirements.

The management of the Company’s capital is guided by the CMP which is driven by the Company’s business strategies and organisational requisites which take into account the business and regulatory environment in which the Company operates. In this respect, the Company sets a capital target that is above the minimum regulatory requirements as defined and required under the Risk-Based Capital Framework.

The Company conducts stress testing annually under the Financial Condition Report. The objective of the stress test is to evaluate the extent by which the Company’s capital could withstand market shocks and by which capital will be eroded by the principal risks identified due to adverse plausible events. The Financial Condition Report, together with the mitigating measures and action plan are tabled to the Board for approval prior to submission to BNM.

Company No. 417867-K

30. Insurance risk management

Managing insurance risk is the core business of the Company. The objectives of managing insurance risks are to enhance the long-term financial performance of the business and limit any excessive variability of the insurance results.

Insurance risk results from pricing and acceptance of reinsurance contracts. The risks arise when actual claims experience is different from the assumptions used in setting the prices of products and establishing the technical provisions and liabilities for claims. Sources of risk include policy lapses and claims such as mortality and morbidity.

The Company utilises retrocession to manage the mortality and morbidity risks. Loss ratios would be monitored closely and insurance risk can be mitigated by a re-pricing exercise if the adverse experience persists.

Geographically, the Company's risks are concentrated in Malaysia. Catastrophic cover is procured to limit catastrophic losses.

The table below sets out the concentration of the Company's reinsurance business premium by type of product.

	<----- 2017 ----->			<----- 2016 ----->		
	Gross RM '000	Retrocession RM '000	Net RM '000	Gross RM '000	Retrocession RM '000	Net RM '000

Company No. 417867-K

30. Insurance risk management (continued)

Key assumptions

Material judgements are required in determining the claim liabilities and in the choice of assumptions. Assumptions used are based on past experience, current internal data, external market indices and benchmarks which reflect current observable market prices and other published information. Assumptions and prudent estimates are determined at date of valuation. Assumptions are further evaluated on a continuous basis in order to arrive at realistic and reasonable valuations.

Disclosure of Key Assumptions

Yearly Renewable Term Contracts

The principal assumptions underlying the estimation of claims liabilities is that the Company's future claims will follow a similar pattern to the past claims development experience. These assumptions include claims development factors and loss ratios. These assumptions are derived based on the Company's historical and emerging underwriting experience. Additional qualitative judgements are used to assess the extent to which past trends may not apply in the future.

In setting provisions for claims liabilities, the Company gives consideration to the probability and magnitude of future experience being more adverse than assumed and exercises a degree of caution in setting reserves when there is considerable uncertainty. As required by Bank Negara Malaysia under the Risk-Based Capital Framework, the Company sets provisions for claims at the 75% confidence interval.

Sensitivities

Given the uncertainty in establishing the claim liabilities, it is likely that the final outcome will be different from estimation. The sensitivity analysis is performed on the Yearly Renewable Term - Life liabilities. However, the Yearly Renewable Term - Health has been excluded due to its relative small size and immateriality.

The analysis is performed for reasonably possible movements in key assumptions with all other assumptions held constant, showing the impact on gross and net liabilities and profit before tax.

	Impact on gross liabilities RM '000	Impact on net liabilities RM '000	Impact on profit before tax RM '000
31 December 2017			
Assumed loss ratios increase by 10%	10,089	10,089	(10,089)
31 December 2016			
Assumed loss ratios increase by 10%	8,307	8,307	(8,307)

Company No. 417867-K

30. Insurance risk management (continued)

Sensitivities (continued)

Coinsurance and Surplus Relief Treaties

The principal assumptions underlying the estimation of liabilities include mortality assumptions, investment return, lapse rates and discount rates.

The Company booked its coinsurance and surplus relief treaties contract liabilities based on liabilities amounts provided by the respective cedants. The key assumptions to which the estimation of liabilities is particularly sensitive are mortality and morbidity rates, longevity, investment return, expenses, lapse and surrender rates and discount rates. The selection of these assumptions varies by cedants and is not disclosed to the Company. As such, sensitivity analysis could not be performed.

31. Financial instruments

31.1 Categories of financial instruments

The table below provides an analysis of financial instruments categorised as follows:

- (a) Loans and receivables (“L&R”)
- (b) Held-to-maturity investments (“HTM”)
- (c) Available-for-sale investments (“AFS”); and
- (d) Financial liabilities measured at amortised cost (“FL”).

Company No. 417867-K

31. Financial instruments (continued)

31.3 Financial risk management

The Company is exposed to a variety of financial risks that includes credit risk, liquidity risk, market risk (currency risk, interest rate risk, equity price risk) and operational risk. The Company's overall financial risk management objective is to ensure that the Company creates value for its shareholders whilst managing potential exposure to adverse effects on its financial performance and positions.

The Company is guided by risk management policies which set out the overall business strategies. The Risk Management Committee sets the policy and framework for the risk management function and reviews its appropriateness regularly. The administration of financial risk management is delegated to the Management of the Company.

The policies and measures taken by the Company to manage these risks are as set out below:

- Credit risk
- Liquidity risk
- Market risk

31.4 Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer, an intermediary or counterparty to settle its financial and contractual obligations to the Company as and when they fall due.

The Company's primary exposure to credit risk arises through its investment in fixed income securities, placements or balances with financial institutions, reinsurance premium receivables and recoveries from retrocessionaires.

Receivables

Risk management objectives, policies and process for managing the risk

Management has taken reasonable steps to ensure that premium receivables that are neither past due nor impaired are stated at their realisable values. The Company uses aging analysis to monitor the credit quality of premium receivables. Premium receivables having significant balances past due more than 90 days, which are deemed to have higher credit risk, are monitored individually.

Company No. 417867-K

31. Financial instruments (continued)

31.4 Credit risk (continued)

Receivables (continued)

Risk management objectives, policies and process for managing the risk (continued)

Recoveries from retrocessionaires are monitored by the Finance Department. The Company monitors the credit quality and financial conditions on a quarterly basis as part of its overall credit risk management framework. The Company cedes the majority of its business to reinsurers that are deemed to be qualified reinsurers under the Risk-Based Capital Framework.

Impairment losses

The Company maintains an aging analysis in respect of insurance receivables and the aging of insurance receivables as at the end of the reporting period was:

	Gross RM'000	Individual impairment RM'000	Collective impairment RM'000	Net RM'000
2017				
Not past due	137,812	-	-	137,812
Past due 1-30 days	6,926	-	-	6,926
Past due 31-60 days	6,443	-	-	6,443
Past due 61-90 days	(30)	-	-	(30)
Past due more than 90 days	-	-	-	-
	<u>151,151</u>	<u>-</u>	<u>-</u>	<u>151,151</u>
2016				
Not past due	137,643	-	-	137,643

Past due 31-60 days	12,414	-	-	12,414
Past due 61-90 days	2,121	-	-	2,121
Past due more than 90 days	(786)	(90)	-	(876)
	<u>151,392</u>	<u>(90)</u>	<u>-</u>	<u>151,302</u>

Company No. 417867-K

31. Financial instruments (continued)

31.4 Credit risk (continued)

Receivables (continued)

Past due and impaired

A financial asset is deemed past due when the counterparty has failed to make payment when the outstanding amount is contractually due.

At 31 December 2017, based on a combination of collective and individual assessment of receivables, the movement in provision for impaired insurance receivables is disclosed below. All insurance receivables are from licensed insurers/reinsurers and there has been no history of non-collection. The Company records impairment allowance for insurance receivables in a separate "Allowance for Impairment" accounts.

	2017 RM '000	2016 RM '000
At 1 January	90	13
Impairment loss recognised	-	90
Impairment loss reversed	(90)	(13)
At 31 December	<u>-</u>	<u>90</u>

Investments and deposit placements

Risk management objectives, policies and procedures for managing the risk

For fixed income securities, the Company relies on the ratings assigned by external rating agencies to assess the issuer's credit risk. Monitoring of credit is carried out by the Finance Department and any adverse changes in the credit profile on a security to below A-rated would be reported to the Investment Committee.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the Company has only invested in domestic securities and have placements with domestic licensed banks. The maximum exposure to credit risk is represented by the carrying amounts in the statement of financial position.

In view of the credit rating of counterparties, management does not expect any counterparty to fail to meet its obligations. The Company does not have overdue investments that have not been impaired.

Company No. 417867-K

31. Financial instruments (continued)

31.4 Credit risk (continued)

31.4.1 Credit exposure

As at the end of the reporting period, the maximum exposure to credit risk arising from receivables is represented by the carrying amounts in the statement of financial position.

The table below shows the maximum exposure to credit risk for the financial asset components on the statement of financial position.

	2017 RM '000	2016 RM '000
Investments:		
Held-to-maturity investments	24,148	4,734

31. Financial instruments (continued)

31.5 Liquidity Risk

Liquidity risk is the risk that the Company may not have sufficient liquid financial resources to meet its obligations when they fall due. The Company's policy is to maintain adequate liquidity to meet its liquidity needs under normal and stressed conditions.

As part of its liquidity management, the Company maintains sufficient level of cash and cash equivalents to meet expected and to a lesser extent unexpected outflows.

31.5.1 Maturity analysis

The table below summarises the maturity profile of the Company's financial liabilities as at the end of the reporting period based on undiscounted contractual payments:

	Carrying amount RM' 000	Contractual interest rate/ coupon %	Contractual cash flow RM' 000	Up to a year* RM' 000	1 - 5 years RM' 000	Above 5 years RM' 000	No maturity date RM' 000
31 December 2017							
Insurance payables	19,331	-	19,331	19,331	-	-	-
Other payables	10,904	-	10,904	9,616	1,288	-	-

Insurance payables	55,955	-	55,955	-	-	-	-
Other payables	10,679	-	10,679	9,231	1,448	-	-
	<u>66,634</u>		<u>66,634</u>	<u>9,231</u>	<u>1,448</u>	<u>-</u>	<u>-</u>

* Expected utilisation or settlement is within 12 months of the reporting date.

Company No. 417867-K

31. Financial instruments (continued)

31.6 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprised of three types of exposures: currency risk, interest rate risk and other price risk.

31.6.1 Currency Risk

The Company is exposed to foreign currency risk on reinsurance premiums and claims that are denominated in currencies other than the Malaysian Ringgit. The Company has exposure to the following currencies: United States Dollar, Philippines Peso, Thailand Baht, Brunei Dollar, Singapore Dollar and Taiwan Dollar.

Risk management objectives, policies and processes for managing the risk

As at the end of the reporting period, 3.14% (2016: 3.26%) of the Company's businesses are from overseas business. As such, the Company has minimal exposure to foreign currency risk, and currency risk sensitivity is not disclosed. The net reinsurance premiums due to the Company from foreign clients are deposited into a multi-currency bank account which would later be transferred to a Ringgit-denominated account.

Exposure to foreign currency risk

The Company's exposure to foreign currency (a currency which is other than the functional currency of the Company) risk, based on carrying amounts as at the end of the reporting period was:

	US Dollar RM '000	Phillippines Peso RM '000	Thailand Baht RM '000	Singapore Dollar RM '000
31 December 2017				
Insurance receivables	-	30	-	-
Cash and cash equivalents	180	-	-	1
	<u>180</u>	<u>30</u>	<u>-</u>	<u>1</u>
31 December 2016				
Insurance receivables	-	83	6	745
Cash and cash equivalents	14	-	-	2
	<u>14</u>	<u>83</u>	<u>6</u>	<u>747</u>

Company No. 417867-K

31. Financial instruments (continued)

31.6 Market risk (continued)

31.6.2 Interest rate risk

Interest rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Risk management objectives, policies and processes for managing the risk

Interest rate risk is managed by the Company on an on-going basis with the primary objective of limiting the extent to which solvency and profitability can be affected by an adverse movement in interest rates.

Exposure to interest rate risk

The Company does not have any variable rate investments and borrowings, and hence are not exposed to a risk of change in cash flows due to changes in interest rates.

The interest rate profile of the Company's significant interest bearing financial instruments, based on carrying amounts as at the end of the reporting period was:

	2017	2016
	RM '000	RM '000
Fixed rate instruments		
- Investments (exclude zero coupon bond)	24,048	4,634
Loans and receivables, excluding insurance receivables and prepayment	943	3,087
Cash and cash equivalents	210	72
	<u>25,201</u>	<u>7,793</u>

The Company's interest-bearing financial instruments are carried at amortised cost hence changes in interest rates have no impact to its carrying amount. As such, a sensitivity analysis for the impact of the rate changes to fair value is not performed.

Company No. 417867-K

31. Financial instruments (continued)

31.6 Market risk (continued)

31.6.3 Other Price Risk

Other price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate or currency risk), regardless whether those changes are caused by factors specific to the individual financial instrument or its issuer or factors affecting similar financial instruments traded in the market. Price risk can arise from investments in equity instruments and unit trust funds.

The Company's investment policy does not permit investment in equities and consequently has no exposure to the volatilities of the equity markets.

The Company invests in unit trust funds which fair value is quoted as the Net Asset Value (NAV) per unit in circularization. The Company is exposed to the changes in NAV/unit of these funds.

The sensitivity analysis below shows the impact to equity for the change in NAV/unit.

2017	Change in Variable	Impact on equity RM'000
NAV/unit	+10%	39,600
NAV/unit	- 10%	(39,600)

31.6.4 Operational Risk

Operational risk is the risk of loss arising from system failure, human error, fraud or external events. Operational risks can cause damage to reputation, have legal or regulatory implications or can lead to financial loss.

The Company mitigates operational risk by establishing a control framework and by monitoring and responding to potential risks. Controls include segregation of duties, access controls, authorisation, reconciliation procedures, staff training and evaluation procedures, including the use of Internal Audit.

The Company has a Business Continuity Plan in place to ensure all aspects of the Company remain to be functioning in the midst of disruptive events. The Company also has a Disaster Recovery Plan which focuses on the technology systems that support various business functions.

31.7 Fair value information

The carrying amounts of cash and cash equivalents, short-term receivables and payables reasonably approximate their fair values due to the relatively short-term nature of these financial instruments.

Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

Company No. 417867-K

31. Financial instruments (continued)

31.7 Fair value information (continued)

Level 1 fair value

Level 1 fair value is derived from quoted price (unadjusted) in active markets for identical financial assets or liabilities that the entity can access at the measurement date.

Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the financial assets or liabilities, either directly or indirectly.

Transfers between Level 1 and Level 2 fair values

There has been no transfer between Level 1 and 2 fair values during the financial year. (2016: no transfer in either directions)

Level 3 fair value

Level 3 fair value, if any, is estimated using unobservable inputs for the financial assets and liabilities.

Company No. 417867-K

31. Financial instruments (continued)**31.7 Fair value information (continued)**

The table below analyses financial instruments carried at fair value and those not carried at fair value for which fair value is disclosed, together with their fair values and carrying amounts shown in the statement of financial position.

	Fair value of financial instruments carried at fair value				Fair value of financial instruments not carried at fair value				Total fair value	Carrying amount

Company No. 417867-K

32. Regulatory capital requirements

The Company's capital management policy is to optimise the efficient and effective use of resources to maximise the return on equity and provide an appropriate level of capital to protect cedants and meet regulatory requirements.

The Company is required to comply with the regulatory capital requirement prescribed in the Risk-Based Capital Framework which is imposed by the Ministry of Finance pursuant to Section 13(1) of the Financial Services Act, 2013. Under this Framework, the Company is required to satisfy a minimum capital adequacy ratio of 130% and maintain a capital level that commensurate with the Company's risk profile. The Company has a capital adequacy ratio in excess of the minimum requirement.

The total capital available of the Company as at 31 December 2017, as defined under the Risk-Based Capital Framework is provided below:

	2017 RM '000	2016 RM '000
Tier 1 capital		
Share capital (paid up)	51,000	51,000
Retained earnings	250,460	215,159
	<u>301,460</u>	<u>266,159</u>
Tier 2 capital		
Available-for-sale reserves	663	(410)
	<u>663</u>	<u>(410)</u>
Amounts deducted from capital	<u>(1,561)</u>	<u>(2,017)</u>
Total capital available	<u><u>300,562</u></u>	<u><u>263,732</u></u>

33. Reinsurance funds

The Company's activities are organised by funds and segregated into the Life Fund and Shareholders' Fund in accordance with the Financial Services Act, 2013.

The reinsurance life business offers various reinsurance arrangements that are required by clients (cedants/retrocessionaires).

The Company's statement of financial position, profit or loss and information on cash flows comprising the Shareholders' and Life Funds are further analysed by funds as follows:

Company No. 417867-K

Independent auditors' report to the members of Malaysian Life Reinsurance Group Berhad

(Company No. 417867-K)
(Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Malaysian Life Reinsurance Group Berhad which comprise the statement of financial position as at 31 December 2017, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 20 to 78.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2017, and of its financial performance and its cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Company does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

Company No. 417867-K

*Malaysian Life Reinsurance Group Berhad
Independent Auditors' Report for the
Financial Year Ended 31 December 2017*

In connection with our audit of the financial statements of the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Company or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Company, the Directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Company No. 417867-K

*Malaysian Life Reinsurance Group Berhad
Independent Auditors' Report for the
Financial Year Ended 31 December 2017*

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Company, including the disclosures, and whether the financial statements of the Company represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.
